DETAILED ACTION

1. Claims 63-84 are pending. Claims 1-62 have been cancelled and claims 63-84 are new claims filed 11/02/04 entered as Response After Non-Final Action.
2. The Correspondence Address Change filed 01/04/05 has been entered.
3. The Change in Power of Attorney filed 01/05/05 has been entered.
4. The IDS filed 11/02/04 has been considered and entered.

Election/Restrictions

5. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 63-81, drawn to a system for providing a discretionary asset allocation program for an investor provided by or in concert with a conflicted person who receives variable fees or profits for providing services, classified in class 705, subclass 35.
 - II. Claims 82-84, drawn to a method for providing discretionary asset allocation services for investors participating in an employer-sponsored benefit plan, classified in class 705, subclass 36.
6. Inventions Group I and Group II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because Group I has separate utility such as providing a discretionary asset allocation program for an

investor provided by or in concert with a conflicted person who receives variable fees or profits for providing services. The subcombination Group II has separate utility such as providing discretionary asset allocation services for investors participating in an employer-sponsored benefit plan. Group I can be used in other areas for retirement planning and making investment decisions and Group II can be used to identify the funding needs of investors in other areas such as real estate.

7. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

8. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

9. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

10. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
